**RE: Improve Water Quality for Indigenous Communities**

Hello Prime Minister Trudeau and Ms. Bennett,

Please make clean water for indigenous communities a primary action item for the Government of Canada in your term.

You would secure a profound legacy for your time in office that would lift the pride and ethical feelings of all Canadians.

Here's a [video](#) of Grassy Narrows, Ontario. These girls have lived under a boil water advisory for their entire lives, which is unacceptable.

Thank you,  
Cindy Babyn
